Studying at JMC

Orientation

JMC Academy holds an Orientation Session for all new students the week prior to commencement of study. Students will also receive a Student Handbook which contains information regarding studying, policies and procedures and all the relevant contacts at the JMC Academy. International students will also be given access to an online pre-arrival orientation video.

Teaching and Assessment Methods

Teaching and learning at the JMC Academy is based on the shared obligation to provide information and practical skills as well as to assess student achievement in a timely manner within each trimester. At the beginning of each unit of study you will be given a Unit Overview which describes what you will cover and the assessment tasks which will need to be completed. You will also be given an Assessment brief detailing the context, assessment task, submission requirements, assessment criteria and reference material. Assessment methods include exams, interviews, production projects, assignments and/or practical exercises, with all units graded. It is the responsibility of all students to submit assignments and deliver project work, participate in presentations and sit exams by the due dates. Your study may be divided into face-to-face classroom sessions and practical time with all students required to attend 80% of each and every unit. Attendance and participation in both is vital to ensure you pass each subject and get the most out of your time with us.

Student Support Program

The JMC Academy Student Support Program has been created on the basis that some students will need additional help to assist in the transition to higher education throughout the first year of their study.

The program includes:

- Orientation program
- Peer Mentor program;
- Provision of counselling service by a qualified counsellor;
- Learning (online) Management System: with plenty of academic and general learning tips which include academic writing, time management, academic examples and other general support topics that are available to students 24 hours per day;

Special Needs

It is required that you inform the JMC Academy, before enrolling, of any special needs or learning difficulties. Please contact administration to organise an appointment to discuss your personal situation and the options and support available. You can be assured that any request for support from JMC Academy staff will be dealt with both tactfully and discreetly.

Student E-Mail

All JMC Academy students are provided with their own 'myjmc' e-mail account upon enrolment. All communication with students will be through this account and therefore it will be your responsibility to regularly check your e-mail.

Moodle

Moodle is a course management system that allows students to interact with each other and their lecturers online. It also allows students to access unit overviews and assessment briefs as well as other JMC documentation such as assignment cover sheets, the Student Handbook and the Style Guide. Moodle is accessible from any device with an internet connection.

Student Portal

Students are also given access to the JMC PEPi Student Portal. This Portal allows students to check their academic results, personal information and enrolment status. Access to this site is through the JMC Academy website.

Deferment or Withdrawal

Students may apply to defer their studies in the event of an unforeseen circumstance or illness for a maximum period of two trimesters. Applications for deferment are accepted at the college's discretion.

Students will be required to complete a Request for Deferral or Withdrawal form that is available from Administration. Please ensure you discuss your situation with the Head of Department or Administration prior to completing this form. An exit interview must be conducted in order to authorise your request. A failure to do so may result in fees continuing to be owed.

International students can only defer their enrolment on compassionate or compelling circumstances and deferring, suspending or cancelling enrolment may affect your Student Visa. Please contact our International Services department for more information.

Recognition of Prior Learning (RPL)

All prospective students have the option of submitting any relevant prior learning (RPL) they wish to be recognised by completing an RPL Application. This application (together with certified copies of documentation) must be provided with your enrolment form.

You may apply for RPL, no later than 14 days from the start of the trimester on the basis of:

- Work experience; or
- Other accredited training you have completed.

All students who lodge an RPL application will be notified in writing of the outcome of their application.

RPL on the basis of work experience

If you are seeking RPL based on your work experience, you will need to provide the JMC Academy with a detailed resume and duty statement and may need to undertake a skills and knowledge test. For further information on critical evidence, applicants are encouraged to consult with the Head of Department for their course. The skills and knowledge test could be a written exam, an assignment, a production and/or an interview, or any other method of assessment that JMC Academy deems appropriate for the relevant academic units of study.

RPL on the basis of other accredited education and training completed

JMC Academy recognises qualifications for accredited education training issued by other registered educational institutions. With your application for RPL, you will have to supply certified copies of transcripts of accredited education and training you have undertaken.
