Projects offer real-world experience

STUDY is just one aspect of an education at JMC Academy.

Each year students complete integration projects such as short films, music videos, animation and live performances.

The projects offer JMC students the opportunity to put skills learnt in the classroom into practice.

All five departments – popular music and performance; audio engineering; digital media and

3D animation; film and TV; and entertainment business management – work together on the projects.

“Productions of all sizes in the entertainment industry are

dependent on a variety of elements working well together,” JMC Academy Brisbane’s Film and TV department head Mairi Cameron said. “The Integration program at JMC gives students a taste of how things happen in the working world, plus it results in work examples for their portfolio.”

JMC Academy Brisbane is holding an open day on Saturday, February 5. RSVPs are essential.
