

AUDIO

BACHELOR OF CREATIVE TECHNOLOGY (AUDIO ENGINEERING + SOUND PRODUCTION)

COURSE STRUCTURE //

Duration: 6 trimesters* over 2 years (full-time)
Contact Hours: 13hrs/week on campus
Delivery: on-campus, 4 classes a week

Intakes: February, June, September | **APPLY NOW!**

* A trimester is 14 weeks duration.

In only 2 years you can graduate with a Bachelor degree thanks to our accelerated full-time course. Part-time study is also available to domestic students.

WHAT WILL I LEARN? //

Diploma Level (Trimesters One + Two)

Work on digital audio workstations + analogue consoles

Get editing, arranging + mixing in ProTools

Operate live sound equipment

Record + mix a band in the studio

Bachelor Level (Trimesters Three – Six)

Get hands-on in the bigger studios

Create sound for mixed media including TV, film + video games

Use highly sophisticated audio equipment (including the SSL Duality console)

Build your skills outside of the studio: record on location and design large-scale live sound systems

Build + repair your own gear with soldering + electronics classes

Become business savvy – learn the industry and gain the business acumen you need to make it as a freelancer, studio owner or anywhere in-between

WHAT JOBS CAN I GET? //

Combining the fundamental audio principles with practical application and training on a range of tech both traditional and contemporary, this course ensures you graduate with the ability and flexibility to undertake a wide range of industry projects.

Integration across other disciplines within JMC Academy ensures that as a graduate, you will be able to approach your chosen industry with a broad perspective and comprehensive understanding of what is required.

Specific roles may include:

- ▶ Music Producer
- ▶ Studio Engineer

- ▶ Pro Tools Operator
- ▶ Sound Effects Editor
- ▶ Music Editor
- ▶ Dialogue Editor
- ▶ Location Sound Engineer
- ▶ Mastering Engineer
- ▶ Sound Designer
- ▶ Stage Technician
- ▶ AV Specialist
- ▶ Radio Content Producer

FAQ'S //

I'm a musician but want to learn how to produce music as well. Is the Audio Engineering + Sound Production the right course for me?

This depends on where you would like to focus your career. Would you like to be a performer, or be behind the desk? In our music + songwriting courses there are units on how to produce your own music which might be worth considering. If you want to know all there is about audio - including how to produce all kinds of music and sound then this is the course for you. Being a musician is an added bonus for this course as the knowledge and skills you have as a musician can be applied to production. Having said that, you don't need to be a musician to study this course, as basic music theory is included in the curriculum.

Is a JMC Academy degree of equal standing/value to a university degree?

Yes. The JMC Academy is registered and regulated by the Tertiary Education Quality and Standards Agency (TEQSA) which is Australia's independent national regulator of the higher education sector, both public and private.

“Do I need to provide samples of my work to support my application to the Audio Engineering + Sound Production course?”

No, you need not provide any samples. However, you are welcome to provide samples of work. This may include any recordings you've done - whether that be live, studio or in your room, screen shots of any ProTools sessions or examples of any technical experience you've had including PA setup, session setup, helping out at live music events, at school or otherwise. Although not necessary, experience such as this demonstrates your keen interest in pursuing audio as a career.

Are JMC courses available to study online?

No, our courses are hands-on and practical. Students are required to attend classes to receive ongoing mentorship, learn new skills and work with the equipment provided. We do encourage our students to use online study resources, however our courses would not be as immersive as they are without the practical component.

COURSE FEES //

FEE-HELP Assistance: FEE-HELP is available for all Higher Education Courses. JMC Academy is a registered Higher Education Provider, which means that eligible students are able to access the Commonwealth's FEE-HELP loan scheme to assist with their financial commitments during study. For more information, please contact us, visit our website or access the Commonwealth's information service at www.studyassist.gov.au.
